ALUMINUM EXPOBAN 24008026

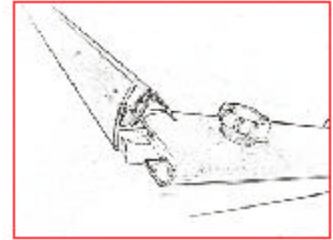

Parts and accessories

1. One Support Base
2. Four Blue Fiberglass Rods
3. Two Aluminum Rods
4. One Plastic Connector
5. Two End Caps for the top Aluminum Rod
6. Two End Caps for the bottom Aluminum Rod

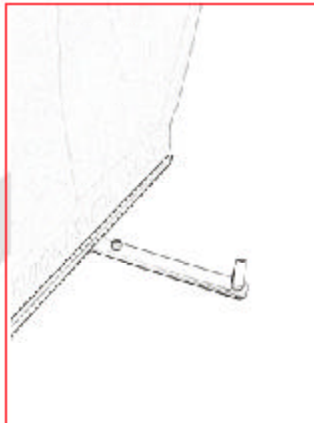

Assemble Instruction

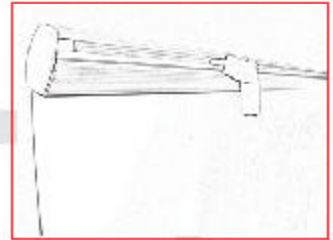

1. Print the image banner and place it in both, the top and bottom Aluminum Rod (3), sliding the image banner inside the Rod by putting light pressure on it until set.

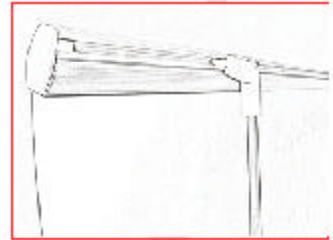

2. Slide Support Base (1) into the bottom Aluminum Rod (3).

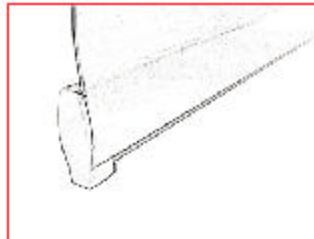

3. Take the Support Base (1) up to the center of the bottom Aluminum Rod (3).

4. Place Plastic Connectors (4) on the top Rod (3) sliding it until the center.

6. Insert the Blue Fiberglass Rods (2) into the Top Plastic Connector (4) and the bottom support base (1).

5. Place the End Caps (5-6) on the top and bottom Aluminum Rods (3). Please be aware that the End Caps of the bottom Rod (6) separate the aluminum Rod (3) from the floor for protection as it appears on image.

Note: The banner size is adjustable to a maximum of 35" width x 84" height. Measurements of a smaller size can be obtained by shortening the rod to the desired size. It is not recommended to use media materials weighing more than 10oz.
